## Kirby Building Systems

March 2010

### Kirby completes another Mega Project in India: Hansen Drives Ltd.

Hansen Drives Ltd, a subsidiary of Belgium-based Hansen Transmissions International NV, has started work on its wind turbine gearbox facility in Tamil Nadu, India. The building is supplied by Kirby Building Systems. Some of the project highlights are:

- The building contains 40 cranes, ranging from 5 MT to 120 MT capacity
- The weight of the Steel Structure is more than 19,000 MT
- The total area of the building is 100,000 SQM under a single roof and completely air conditioned
- The building design featured a 45 MT single crane girder which was erected in one piece

### Kirby in India

- Pioneer of Pre Engineered Steel Buildings (PEB) in India
- Local PEB plants in Andhra Pradesh and Uttarakhand
- Recently completed renowned projects like Renault Nissan (20,000 MT), Pipava Shipyard (9,000 MT), Tata Nano (8,000 MT), Birla Tyres (6,000 MT) and many others

### Introducing Wael Elqadah, our new General Manager

We are delighted to welcome Wael Elqadah as our new General Manager for Middle East and Africa region. For nearly four years, Wael has been the driving force behind the development, implementation and growth of the Operational Excellence program at Alghanim Industries' operations in Middle East, India and Southeast Asia. As a result, the concepts of

continuous process improvement have become an integral part of the Alghanim culture. This work, as well as his previous experience at TRW and AutoLiv in product development and manufacturing engineering, will serve him well as he takes on this new role.
